

The awning of a new age.

The new age of comfort. The new age of luxury. The new age of style.

Outdoors.

Make your move to outdoor living seamless. ShadeFX affords the comfort of fine cushioned furniture, overflowing dining tables, and memorable family events free of concern for the elements: rain or shine.

Entertain outdoors on a grand scale. The luxury of covering areas up to 600 sq-ft under one retractable canopy happens at the push of a button. Only ShadeFX is designed to protect large areas from both sun and rain, while allowing the option of open sky for enjoying perfect days to the fullest.

Does style come with substance: of course. You can take your love for outdoor living to any location. Only ShadeFX has the design strength to withstand the rigors of terrace locations in the sky, and the wind forces common among tall downtown buildings and seaside locales.

103 -110 Hepbourne St.

Toronto, ON M6H 1K5

ShadeFX is available through architects, designers, and quality contractors worldwide. Specify ShadeFX to your landscape construction professional and we'll make the specification, purchase and installation process a seamless and pleasurable experience.

All canopies are made to order to fit a pergola frame that is existing or being constructed separately by the contractor.
